Fuel Efficient Manual Transmission Fluid - Transaxle

## Description

Castrol Syntrans V FE 75W-80 is a full synthetic 75W-80 gear oil designed to provide enhanced EP performance compared with a conventional GL-4 fluid in combination with synchroniser compatibility and fuel efficiency benefits. It is suitable for transaxles, manual gearboxes, transfer boxes and final drives where an API GL-4 lubricant is specified. Recommended by Castrol for all 5- and 6-speed manual transmissions of Volkswagen, Audi, Seat and Skoda.

#### Advantages

- Low viscosity combined with excellent anti-wear/EP protection ensures the potential for fuel economy benefits in more severe transaxle applications.
- Extremely good cold flow properties provides added protection on start up and improves shift quality.
- Excellent frictional characteristics extends synchroniser life and improves shift comfort.
- High shear stability maintains performance over the lifetime of the lubricant.
- Excellent high temperature stability maintains transmission cleanliness prolonging the life of transmission and lubricant.
